

**ADSS Anchor Clamp, for 9-14mm Cable**

**Applications**

ADSS anchor clamp is a tensioner developed to tension all dielectric self-supporting round cables, applied at central loop routes up to 100 meters and last mile installation routes in FTTx, GPON network constructions.

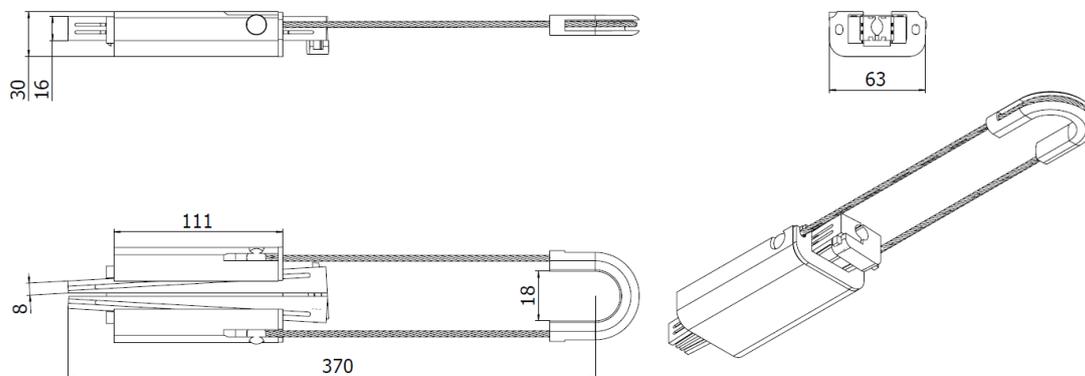

**Installation**

Slide the wedge in the clamp body to the top which allows sufficient gap for the cable to inset, place the cable inside the plastic block, and slide the wedge down to make sure the cable is fully fixed. At last, open the bail to install the clamp on pole bracket or hook.

**General Specification**

Body Material	Aluminium Alloy
Wedge Material	PA66 (UV Resistance)
Bail Material	201 Stainless Steel
Clamp Dimension	370*63*30 mm
Compatible Cable Size	9 -14 mm
Breaking Load	10 KN

**Dimension**
